MoebelX reserves the rights at all time to apply modifications for the functional or qualitative improvement of its products. The given dimensions of the furniture may be slightly changed, such as in the case of the updated dimensions of the furniture will be provided on the website mbx.bg. Texts and drawings present in this brochure have a divulgative purpose: for every technical and dimensional aspect please refer to the company's price lists. The colours of the pictures shown and the original colours may vary slightly due to the printing process.

KITCHENS FOR LIVING

COLLECTION
2024

MoebelX is a Bulgarian luxury brand, renowned for excellence. With state of the art technology, from contemporary design to an original classic, each kitchen will boast the use of the highest quality materials. Our extensive collection is designed to suit an array of budgets, spaces and styles, and is ready and waiting to help you create your perfect room. We have a burning desire to break free from the ordinary. Our clients are not like everybody else. We are not like everybody else. We care about the user of the kitchen. Available through a network of independent retailers nationwide, your local MbX specialist will guide you through the entire process with the highest level of service and care. They will help guide you on ideal kitchen layouts and appliance combinations for the best experience.

Timeless and unrivalled quality, paired with exceptional design and innovative engineering, is a recipe that's guaranteed to delight. Alongside technological advances, social and cultural changes have increased the expectations of kitchens today.

Over the years, the home has become more of an open, practical space which has called for many home owners to increase the size and functional use of the kitchen. Kitchens today are most often integrated into a dining and living space and not considered as a separate room used solely for the storage, preparation and cooking of food. This revolution in the home provoked the requisite for luxury kitchen design and manufacture. Our approach is always to provide kitchens that are innovative, flexible and good quality at an affordable price.
